Click here after you have given a score for each section to see the pews color
This is correct!!!

- The patient has been **irritable** which is not normal and mom is **not able to console** the patient.
- 2 points

This is NOT correct

- The HR is 17 bpm **above** VS parameters for age (107-153).
- Patient is **pink** and has a cap refill of **2 seconds**
- 2 points
What about technology dependent patients?
Why yes, it did!
Everyone needs a Julie and a Kaylan!
Have we made a difference?

Cook Children's
Acknowledgements

A huge thank you to the following individuals:

- Jamie Bankston
- Mary Cazzell
- Kaylan Branson
- Julie Van Orne
